Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 01 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-3 and 5-48 is/are pending in the application.

Paper No(s)/Mail Date. _____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

DETAILED ACTION

Election/Restrictions

1. This application contains claims 1, 3 and 7-48 drawn to an invention nonelected with traverse in reply filed 10/20/04. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
2. Claims 1, 3 and 7-48 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in reply filed 10/20/04.
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Specification

4. The abstract of the disclosure is objected to because it does not describe the elected species. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claim 2 is rejected under 35 U.S.C. 102(e) as being anticipated by De Bock et al. (US 6,604,461).

7. De Bock et al. (...461) disclose a transfer fixing apparatus comprising: an intermediate transfer member (12) having an outer surface onto which the toner image is transferred; a transfer fixing member (50) having an outer surface onto which the toner image is transferred by the intermediate transfer member; a heating member (66) configured to heat the toner image on the outer surface of the transfer fixing member; and an opposite member (70) formed opposite the transfer fixing member, wherein a nip is formed between the transfer fixing member and the opposite member, the toner image being fixed onto a record medium (58) while passing through the nip (figure 1; and col. 8, lines 26-31); wherein the transfer fixing member is separated by a space from the intermediate transfer member by a thickness of the toner image (figures 1 and 2).

Response to Arguments

8. Applicant's arguments filed 4/1/05 have been fully considered but they are not persuasive.

9. Applicant states that the amendment has been amended to more clearly directed to the claims, however, the abstract still does not describe the invention contained in claims 2, 5 and 6.

10. Applicant argues that DeBock et al. (US 6,604,461) do not disclose that a transfer fixing member is separated by a space from the intermediate transfer member by a thickness of the toner image; however, this is incorrect. DeBock et al. (...461) discloses that the toner image is conveyed between the transfer fixing member and the intermediate transfer member, thus separating them by a space which is defined by the thickness of the toner image. Applicant also argues that DeBock et al. (...461) do not disclose the limitation that the intermediate transfer belt and the transfer fixing roller do not contact each other in areas without a toner; however, this limitation is not contained in the language of claims 2, 5 or 6, thus is moot.

Allowable Subject Matter

11. Claims 5 and 6 are allowed.

Final Rejection

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2852

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
